The goal of Minority AIDS Initiative Funding (MAI) is to improve health outcomes among people with HIV who are racial and ethnic minorities as demonstrated by viral suppression. MAI funds must be used to deliver services designed to address the unique barriers and challenges faced by hard-to-reach, disproportionately impacted individuals within the TGA. MAI funding provides core medical and related support services to improve access and reduce disparities in health outcomes. MAI funding will focus on the following subpopulations and the services delivered are to be distinctly different when compared to services delivered to the general population. MAI services will specifically focus on Black and Hispanic men who have sex with men (MSM) between 25-34 years of age, Black Women between 25-34 years of age, and Black and Hispanic Youth, 18-24 years of age.
