Re: RFP 2023-137, Annual Contract for Computer Aided Dispatch & Law Enforcement Records Management System

Our team has completed the process of reviewing the available options for our Computer Aided Dispatch & Law Enforcement Records Management System. After careful consideration of alternate programs and our current needs we have determined that no other system provides all of the important components to include the HR Personnel management and Field Training management. Our current contract fills those needs and should be able to continue to provide the services in the future. Though the Sheriff's Office will be looking at upgrading some infrastructure to continue to support growth, we anticipate an overall cost savings to the County in the long run related to CAD/RMS upgrades.

At this time, we are asking that the County reject all bids for CAD/RMS programs for the Sheriff's Office.

Respectfully,

A handwritten signature in black ink, appearing to read "Jennifer Gabbert", written over a horizontal line.
