

Dear David,

I appreciate that your staff visited with me today to evaluate my request to modify the work stations of 2 Call Center staff by possibly constructing dividers, walls or partitions between their areas.

As I explained, these 2 employees sit next to each other in the front area of the department; there is no divider/wall between them. They are currently out on Covid quarantine and I would like to make it safer for them when they return to work next week.

Thanks for your help.

Julie
